EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jennifer Bush (Reg. # 50,784) on 17 July 2008.

The application has been amended as follows:

In claim 21, lines 8-9, **change**: "perform an action besides printing relating to the printed and non-printed data contained in the electronic document"

to: "perform an action besides printing relating to the printed and non-printed data contained in the electronic document, wherein the action is selected from the group consisting of updating a database, sending an email, monitoring a use of fonts in the document, and monitoring a use of halftones in the document"

DETAILED ACTION

Response to Arguments

Applicant's arguments, see pages 8-13, filed 12 May 2008, with respect to the rejections under 35 U.S.C. § 103(a) have been fully considered and are persuasive. The rejections under 35 U.S.C. § 103(a) have been withdrawn.

Allowable Subject Matter

Claims 1-14 and 16-21 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a method of analyzing and processing an electronic document, which is received by a data processing system and which has printed and non-printed data. The analysis of the printed and non-printed data triggers a printer to perform a particular action. The action is selected from a group consisting of four possible actions. The particular language of claim 1 recites "the action is selected from a group consisting of" which Examiner interprets to mean that all four actions, and only those four actions, are available and can be selected between. "Selected from" implies that all the recited actions are available for selection in the printer. "Consisting of" is closed language which requires that only the four listed actions, and no other actions, are available for selection [see MPEP § 2111.03]. The four actions available for selection are updating a database, sending an email, monitoring the use of fonts in a document, and monitoring the use of halftones in the document.

This combination of features recited in claim 1 are not taught by the previously cited prior art, nor has Examiner discovered additional prior art which anticipates claim 1 or renders claim 1 obvious to one of ordinary skill in the art at the time of the invention. The method of claim 1 is advantageous in that it automatically and efficiently processes one of a set of additional functions upon receiving an electronic document, along with alternately printing the document. Upon receiving and analyzing the printed and non-printed portions of an electronic document, the invention of claim 1 can selectively update a particular database (receiving data), send an email (sending data), monitor the use of fonts (print control), or monitor the use of halftones (print control).

Claim 20 is a printer which performs the method of claim 1, and is thus allowable for similar reasons. Claim 21 is a computer program product on a medium storing the computer instructions which perform the method of claim 1, and is thus allowable for reasons similar to those given for claim 1.

Art Unit: 2625

Claims 2-14 and 16-19 depend, directly or indirectly, from claim 1 and are therefore allowable at least due to their respective dependencies.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Thompson whose telephone number is (571)272-7441. The examiner can normally be reached on 8:30AM-5:00PM.
